

DEACTIVATE COVID-19

BY 99.4% IN 30 MINUTES

GPS CLEARS THE AIR OF PARTICLES FASTER

Particulate matter includes pollutants, dust, allergens, mold, bacteria – and viruses. GPS's technology constantly generates a high concentration of positively and negatively charged ions. These ions travel through the air continuously seeking out and attaching to particles. Larger by virtue of combination, they are more easily captured by the ventilation and filtration systems or become too heavy to remain suspended in the air.

GPS INACTIVATES PATHOGENS

When ions come into contact with pathogens, they steal away hydrogen from the pathogens, reducing the infectivity of the virus.

GPS IS SAFE

Our needlepoint bipolar ionization is OZONE free and safe to use across commercial, industrial and residential buildings. Traditional bipolar ionization systems produce harmful ozone as a byproduct.
